

# PETROL FUEL INJECTOR CLEANER

## DESCRIPTION

**PETROGULF PETROL FUEL INJECTOR CLEANER** is a super ashless detergent product that uses GERMAN TECHNOLOGY based advanced formula to cleanse injector and valves deposits which helps restore engine performance. PETROGULF PETROL INJECTOR CLEANER consists of a powerful friction modifier to reduce upper cylinder friction thus enhancing overall fuel economy up to 5%.

## APPLICATIONS

**PETROGULF PETROL FUEL INJECTOR CLEANER** has been developed for use in today's high performance gasoline engines. Fuel unsaturates and other contaminants can combine to form harmful deposits especially when exposed to conditions of high temperature and pressure associated with advance fuel injection system equipments. PETROGULF PETROL INJECTOR CLEANER helps reduce or eliminate deposits of such kind.

## RECOMMENDATIONS

**PETROGULF PETROL FUEL INJECTOR CLEANER** is a powerful cleaning agent which removes existing deposits in both intake valves and fuel injection system. It is recommended for a dosage of one bottle per tank to keep clean and 2 bottles for a deep clean process.

## KEY BENEFITS

- Smoothens rough idle and eliminates tough starts
- Reduce combustion chamber deposits
- Reducing upper cylinder friction, thus restoring lost fuel efficiency
- Reduces white and black smoke
- Bio fuel compatibility

## TYPICAL CHARACTERISTICS

TEST PARAMETER	TYPICAL VALUES
Density @20	0.781
Odour	normal
Apperance	Colorless
Flash Point, PMCC, oC	40
Viscosity @ 40, oC	0.50

*\*These characteristics are typical of current production. Whilst future production will conform to Petrogulf specification, variations in these Characteristics may occur. The oil drain interval as specified by the engine manufacturer should be adhered to, particularly where indirect fuel Injection is used.*

## Handling, Health and Safety

- In normal conditions of use, this lubricant presents no particular toxic hazard. All lubricants, of any kind should be handled with great care, particularly avoiding any contact with skin.
- Prevent any splashing, and keep away from combustible materials. Store under cover and away from any risk of pollution. Dispose off the used oil correctly; don't pour down drains, into watercourses or the soil.
- PetroGulf will not accept liability if the product is used other than in manner or with the precautions, or for the purpose specified. Before the product is used other than directed advice should be obtained from PetroGulf local office.
